

## **ELEVATION CERTIFICATES**

The Elevation Certificate is an administrative tool of the National Flood Insurance Program (NFIP). The Elevation Certificate provides information necessary to ensure compliance with community floodplain management regulations, it is used to determine the proper insurance premium rate, and to support a request for a Letter of Map Amendment (LOMA) or Letter of Map Revision based on fill (LOMR-F).

Elevation certificates submitted to the City of Fond du Lac after 4/17/12 for construction in a special flood hazard area are a matter of public record and are on file in the Community Development Department at 160 South Macy Street.
